KITE PHOTO OF SEA-BOTTOM IS PLAN PROPOSED

Scientific Photographers Here
on Kilauea Expedition May
Be Enlisted

The possibility of photographing the position of the F-4 from a kite was suggested to Admiral Moore this morning by Dr. George Herbert. Admiral Moore has communicated with J. F. Haworth, head of the kite expedition taking pictures of the landscape plot of Kilauea crater for Harvard university.

J. W. Porter, member of the expedition, happened to be in Honolulu today and explained the scientific use of kites in photography. The pictures taken of the Kilauea burning lava beds are clear and distinct. The speculation is whether the sea floor would show clearly enough, the sand would be light and the coral dark.

At Kilauea a large box kite is let out over the crater from a drum windlass on the rim. The line is fine piano wire. The camera which is a delicately arranged apparatus very light in weight, is hung on the wire 100 feet below the kite. When all is in readiness for the picture a messenger is sent up along the wire to release the shutter.

Mr. Porter expressed the opinion that if the picture were successful the long cigar-shaped submarine would show dark on the plate, especially if the sea floor at the spot were sand.

If Mr. Haworth at the Volcano House thinks the picture possible the apparatus will be rushed to the scene of the disaster.

HAWAII COUNTY BILL STILL UP BEFORE SENATE

After disposing of a number of routine affairs the senate resolved into committee of the whole this afternoon and again took up Senator Metzger's S. B. 48, for the reorganization of Hawaii county's government. The introduction of a number of amendments which materially alter the reading of the measure but do not change its general purpose for any of the more important features.

The changes in the main provide for the bonding of the county officers and re-word portions of the bill. This occupied the solons' attention until a late hour.

The senate dispatched Senator James L. Coke to Rear Admiral C. B. T. Moore this afternoon to ascertain whether it would be advisable to accept his invitation to the legislators to visit Pearl Harbor next Sunday. Coke returned half an hour later with the information that the rear admiral suggested it might be well to withhold the acceptance temporarily. The solons agreed with the navy officer's suggestion. It was intimated the invitation probably would be renewed later, before the session adjourns sine die.

The governor signed three bills today as follows:

H. B. 105 as Act 47, authorizing the territorial auditor to issue a warrant to the Paradise of the Pacific for printing contracts by H. P. Wood of the Fair Commission.

H. B. 87 as Act 28, authorizing the county clerk of the city and county of Honolulu to appoint extra deputies.

H. B. 195 as Act 29, continuing the school budget in force for six months to December 31, 1915.

The governor today signed orders setting aside two small tracts in Maunaloa valley near the College of Hawaii for the use of that institution in establishing the new departments for which the \$16,000 appropriation was set aside by the conservation commission this week.

The senate today adopted senate resolution No. 1, introduced yesterday by Coke, requesting Congress to provide for life-saving stations in Hawaii, particularly at Honolulu and Hilo.

"I don't see how the lower house ever came to pass such a bill," remarked Senator Rice this afternoon, when H. B. 193 was brought in from the house of representatives. The measure giving churches a preference right to purchase lands, seeks to amend the land laws. Rice called the senate's attention to the fact that this right is not possessed by the territory. The bill passed first reading but will be killed on second reading unless the lower house asks leave to withdraw it.

Chairman Irwin of the accounts committee of the senate reported on the cost of the session for the first 30 days. The total amount spent, according to his report, was \$16,820, leaving a total unexpended balance on

ASSOCIATED PRESS COURT QUESTIONS FOREIGN EXHIBITS RIGHT OF STATE TO SEIZE THAW BY MARSHALL

[Associated Press by Federal Wireless]
NEW YORK, March 26.—Hearing arguments before the appellate branch of the supreme court of New York on a motion to have Harry Thaw returned to New Hampshire, two of the judges made the statement that they doubted the justification of the state in seizing Thaw after his recent acquittal on the charge of conspiracy to escape from Matteawan asylum. The decision on the motion was reserved.

NEW LAUNCHES SENT TO RELIEVE THOSE WORKING ALL NIGHT

Young Brothers' sea-going launch Helen was sent to assist in the search of the lost submarine at 1 o'clock this afternoon. This vessel may relieve the Makaala, which has been on duty patrolling off the harbor since early yesterday afternoon. The Helen has been supplied with light sounding and grappling gear.

A four-inch steel cable used for some years by the Inter-Island Steam Navigation Company in wrecking operations in island waters was placed on board the Matson Navigation tug Intrepid this morning. The cable is about 600 feet in length. It is said to be the strongest towing line available at the port.

Two fast torpedo launches belonging to the United States submarine tender Alert were early this morning pressed into service in trolling a sounding line and also employed as despatch boats between the anchorage and the Honolulu naval station.

MORNING ON 'CHANGE.

Instead of going up with the price of sugar, stocks fell off again today. Only two securities advanced. Only went up 1-8. Pioneer was up 1-4. The others declined. Onomea dropped 1-4 to 32 1-4. Honokaa went at 51-2, a loss of 1-8. McBryde dropped the eighth it advanced two days ago and was again only 61-2. Hilo Common lost ten cents more, going to 60.

Hand of \$25,830.20, said Irwin, is \$817 less than was spent by the senate in the first 20 days of the session two years ago. This indicates the solons' economy program is bearing fruit.

Vice President and Assistant Secretary of Navy Roosevelt Received By Commissioners

[Associated Press by Federal Wireless]
SAN FRANCISCO, March 26.—Vice President Marshall and Assistant Secretary of the Navy Franklin D. Roosevelt today officially visited the exhibits of 18 foreign nations, being received by the commissioners for each. Tonight they will be the guests at a dinner given by the Japanese representatives and at a reception in the California building.

EAT CABBAGE. FISH. SAUSAGE. NEW BREAD

No indigestion, Gas, Sourness or Upset Stomach if you'll take "Pape's Diapiesin"—Try This!

Do some foods you eat hit back—taste good, but work badly; ferment into stubborn lumps and cause a sick, sour, gassy stomach? Now, Mr. or Mrs. Diapiesin lot this down: Pape's Diapiesin digests everything, leaving nothing to sour and upset you. There never was anything so safely quick, so certainly effective. No difference how badly your stomach is disordered you will get happy relief in five minutes, but what pleases you most is that it strengthens and regulates your stomach so you can eat your favorite foods without fear.

Most remedies give you relief sometimes—they are slow, but not sure. "Pape's Diapiesin" is quick, positive and puts your stomach in a healthy condition so the misery won't come back.

You feel different as soon as "Pape's Diapiesin" comes in contact with the stomach—distress just vanishes—your stomach gets sweet, no gases, no belching, no eructations of undigested food, your head clears and you feel fine.

Go now, make the best investment you ever made by getting a large fifty-cent case of Pape's Diapiesin from any drug store. You realize in five minutes how needless it is to suffer from indigestion, dyspepsia or any stomach disorder—advertisement.
